

GMC Defence Services
Security and Investigation Company

COMPANY PROFILE

GMC Defence Services provides its customers with a decade of experience in the field of Security and Investigation, also acquired in international contexts.

GMC has always set clear and defined objectives to guarantee its leadership in the security, investigation, and training field:

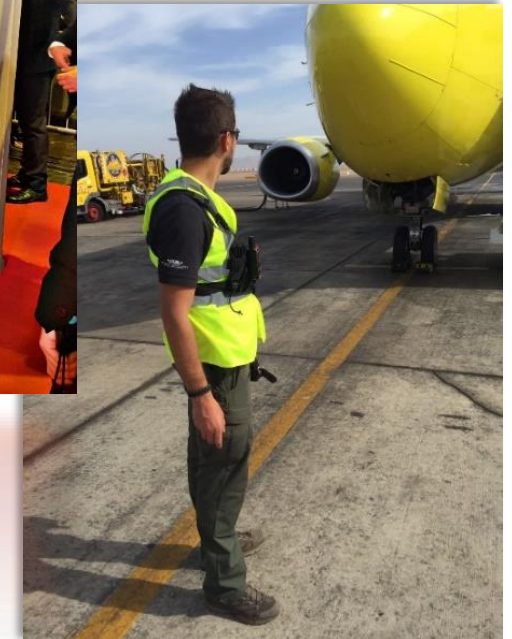

- Train highly skilled personnel to offer its customers the best solutions at economic, technical and operational level;
- Provide effective and appropriate responses to the customers' needs in order to ensure a service that is compliant with the commitments given;
- Grow up in a balanced way, encouraging long-lasting relationships with companies and individuals.

SECURITY SERVICES

Our company has been operating for over 10 years in the political, financial, entertainment, and sports fields, providing an extensive risk analysis and activating consequent planning and operational arrangements for security services.

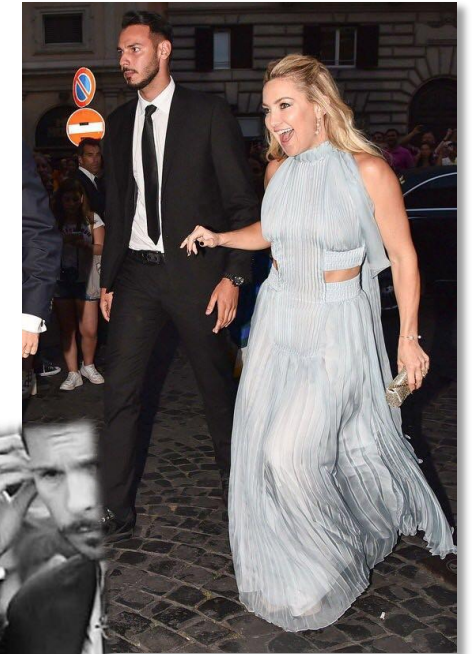

- Security services for small or large events
- Risk Management
- Day and night residential security
- Access control
- K-9 Units
- Metal Detection
- Dedicated monitoring for yards and endangered structures
- Shoplifting deterrence services
- Trustee and custody services

CLOSE PROTECTION SERVICES

International corporate, businessman, personalities from politics, cinema, culture, entertainment, and sports, rely on our personalized assistance services. The international experience and continuous training of our CPOs guarantee our customers efficiency and safety.

Our analysts study our customers' needs and plan every little detail. The planning activity, together with the organizational capacity and the rapid decision-making of our CPOs, provide the client with a complete, efficient, and totally safe service. We analyze, anticipate and avoid problems quickly.

PRIVATE INVESTIGATIONS

Through an in-depth research of evidence sources, information gathering and presentation of legally valid materials in the judgment, the private investigator is an essential tool for the protection of rights, both for the private and the companies.

The GMC Investigation Company operates at national and international level and employs investigative collaborators with proven experience and strict ethical principles that reflect the values of confidentiality, empathy, and professionalism required to a private investigator.

Thanks to our exclusive partnerships, we are able to provide our customers with informative advices and highly specialized technology.

TRAINING ACADEMY

The GMC Academy aims to train and update professionals in the security and investigation fields with customized practical and theoretical programs. In addition to our staff, also security companies, local police, corporate and private security operators, as well as investigative collaborators and Armed Forces personnel, enjoy our Academy.

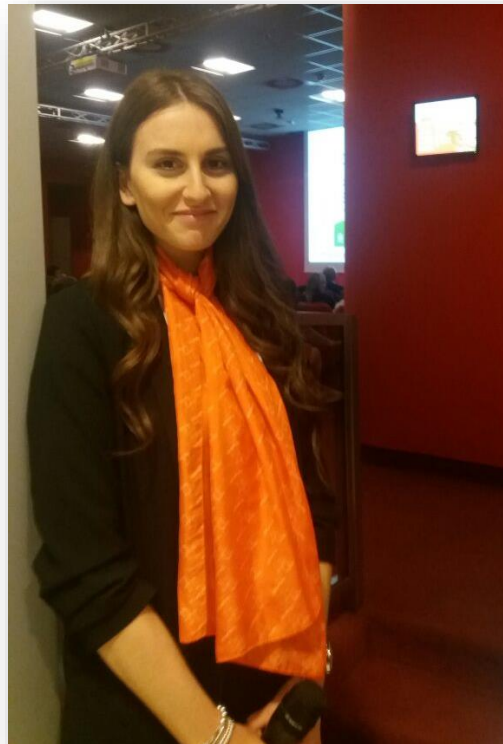

All the operative staff has the authorizations released by the Police Headquarters and the Prefecture of Rome, according to the regulations on Safety and Investigations (T.U.L.P.S.).

EVENTS MANAGEMENT
